Categories: Pogo FOIA

I've removed the ADEC person from this email chain to preserve privileges in this communication.

I guess we can infer that they can't meet the standards, or have they already said as much? If it is possible to meet internally before hand I would find that helpful to get a grasp on what they can't accomplish and what this anticipated order would need to address.

I suggest letting Scott Downey know that this is going on so that he is aware of the resources that will be needed to issue an enforcement order, and perhaps to coordinate with ADEC. Is this something they can do w/out EPA?

That being said, I am available on either the 5th or the 12th.

Hi, Thanks for the reminder Zach! I just spoke to Sally, we had just both been very busy and had not connected yet. They now know that they will have a final test report ready by Dec 2nd. So it would probable make since to wait until they have that. Thursdays would work well for Sally, so we are thinking that either 12/5 or 12/12 would be good days to meet for 2 hours. We would talk technical stuff like the boundaries for the parameters. Then I think we are at the point where we need to work out a compliance order by consent.

Robin, you can verify this, it sounds like ADEC will be issuing them a NOV for the SO2 limit.
Also, is there anyone else from ADEC that should be on the line for this meeting, considering that we need to start to talk about a compliance order.

John, are you the only EPA staff from enforcement I need to worry about advising, do you think Kennan or Scott would like to know more from me, or will you cover informing them what they may be interested in?

I think all of you on this email, at least, should be at the meeting. Let me know if you think of someone else I should include. Do any of you have any conflicts on 12/5 from 11am – 1pm (for a 2 hour block I am only available from 11 – 1)

How about 12/12 from 10am – 1pm?

Thanks!

Hi Heather – Are we meeting with Pogo next Thursday?

Hope things are good,  
Zach

**Subject:** follow up meeting

Hi Heather. Mike and I spoke with Zach briefly on Monday about the Sept stack testing. We are wondering if Thurs Nov 21 would work for a follow up meeting in Seattle. We'd bring our preliminary test data and could discuss the other requirements of the CISWI Rule. Please let us know if this date works for you or not.  
Thank you.
